The meeting was held to review the Council's Aims and Targets for 2017/18. Panel members were informed of progress on each target, many of which had already been completed in anticipation of the municipal year end in March.

Members raised a number of questions regarding individual targets.

A number of additional questions/problems were raised but these were not under the control of the Town Council and members were directed to the correct organisation and where ever possible a contact name was provided.

The new Aims and Targets sheet for 2018/19 was also circulated for members' information. These would commence in April 2018 with the new municipal year.
